Subject: Dimock and congressiona call

Just letting you know that tomorrow is a follow up call with cong. Minoli (sp) staff (his staff was abusive in the last call and epa cut it short). This time, the reg 3 RA and state secretary and deputy second will be on the phone. We'll cover it too as will bern's staff. I don't think anyone else from hq needs to be on, ie steve chester, but wanted to get your thoughts
